

Ad hoc announcement pursuant to Art. 53 LR

Zurich, November 20, 2023

Edisun Power bond issue attracts strong interest with CHF 25 million

The CHF 20 million bond with a five-year term (November 1, 2023 – October 31, 2028) and a 3.25% interest rate issued on August 22, 2023 has met with extremely great interest.

The bond has been considerably oversubscribed with a total of CHF 25.31 million. The Board of Directors has decided to exercise the option in the issue prospectus and increase the size of the bond by CHF 5.31 million.

Alongside the financial support, the company has detected a strong desire among investors for a rapid expansion of solar power production and a climate-neutral energy supply. This serves as encouragement for Edisun Power to advance even faster along the course embarked upon. The company was now able to start building three large solar systems in Portugal (186MWp).
